Nairobi.

EDUCATION

2022-2026   Meru university of science and technology

Bachelor of business information technology

2018-2022   Mumbuni boy's high school

Skills

a.   Front-End: React.js, Next.js, Tailwind CSS, Shadcn/ui

b.   Back-End: Node.js, Express.js, REST APIs

c.   Database: MongoDB, Firebase, PostgreSQL, MYSQL

d.   Python, JavaScript and Java

e.   Version Control: Git, GitHub

Projects

1.   **E-commerce Web App**
     Developed a full-stack e-commerce platform using React (frontend) and Express.js (backend) with MongoDB, Stripe payments, order placement, and real-time order tracking.

     https://github.com/Mavekepeter/foreverFassionCollection.git

2.   **AI E-Waste Management System**
     Developed a system that features Gemini AI to identify electronic waste from user-uploaded images and assigns reward points based on proper disposal. It features Web3 authentication for secure and decentralized user verification, ensuring transparency. Built with Next.js, the platform offers a seamless interface while integrating the Gemini AI API for accurate waste classification.
